GOURAV OJHA

SDE Intern | Full Stack Developer | Backend Developer | Python

+91 8269726425 | gourav231b121@gmail.com | Guna, Madhya Pradesh, India

Portfolio | GitHub | LinkedIn | LeetCode

EXPERIENCE

Full Stack Developer Intern – Indux Technology *October 2026 – Present*

- Engaged as a Full Stack Developer Intern at Indux Technology, focusing on web development projects.
- Collaborated with team members to learn new technologies and enhance coding skills.
- Contributed to the development of innovative solutions, gaining practical experience in the tech industry.
- Embraced the startup culture, fostering creativity and adaptability in a fast-paced environment.

AI Agent Engineer – SKXYWTF (World Trade Factory) *September 2026 – October 2026*

- Built an AI Repository Health Agent (Node.js/Python, GitHub REST API, PostgreSQL) scanning 15+ private repos nightly.
- Implemented deterministic health scoring with an LLM explainer giving plain-language findings with file/line references.
- Built a safe auto-fix pipeline (allow-listed fixes) that tests patches in a sandbox and opens draft PRs for human review.

Full Stack Developer Intern – Brahmion Spacetech Pvt. Ltd. (IIT Kanpur) *December 2025 – February 2026*

- Built a frontend-only cinematic single-page website using React, TypeScript, Vite and Tailwind CSS, deployed on Vercel.
- Managed and maintained the live website and worked with the team on deployments as a team member, coordinating with the founders on accurate product and team content.
- Organized site content in typed data files, using only verified public content from the company's reference site.

PROJECTS

RepoX – AI-Powered GitHub Repository Analyzer & Coding Agent

React.js, Node.js, Express.js, MongoDB, GitHub API, LLMs, Docker, Redis

- Built an AI agent that analyzes GitHub repositories for dependency, code-quality, security, testing and documentation issues, combining static analysis with LLM reasoning to generate actionable fixes.
- Automated the analyze, fix, test and pull-request workflow using the GitHub API so that fixes are validated before a PR is created.
- Ran generated code in Docker sandboxes with Redis-backed background jobs and validation checks for safe, reliable automation.

AI-Powered Network Packet Sniffer & Anomaly Detection System

Python, Scapy, Scikit-learn, Pandas, NumPy, LLM API

- Built a real-time network traffic monitoring system in Python (Scapy) that captures Ethernet, IPv4, TCP, UDP and ICMP packets and performs feature engineering on IP/MAC addresses, ports, packet sizes, protocols and TCP flags.
- Trained an unsupervised machine learning model (Isolation Forest, Scikit-learn) on Pandas/NumPy data to perform anomaly detection without labelled attack data.
- Integrated an LLM API (Generative AI) to convert detected anomalies into plain-English explanations and alerts.

TECHNICAL SKILLS

Languages: Python, JavaScript, C++, SQL
Backend & Databases: Node.js, Express.js, REST APIs, MongoDB, MySQL
Tools: Git, GitHub, Docker, Redis, Postman, Scapy
Generative AI: Large Language Models (LLMs), LLM API Integration, Prompt Engineering
Core CS: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems

ACHIEVEMENTS

- Solved 300+ Data Structures and Algorithms (DSA) problems on LeetCode.
- Top 10 student in Class X and XII; completed NCC "A" Certificate.
- Participated in All India Trekking Camp and Division-Level Chess Tournament.

PROFESSIONAL SUMMARY

Computer Science undergraduate (B.Tech, 2027) seeking a Software Developer (SDE) Internship. Hands-on experience building REST APIs and full-stack applications with Python, Node.js, Express.js, MongoDB and React.js, currently working as a Full Stack Developer Intern at Indux Technology. Built an unsupervised machine learning system for network anomaly detection (Isolation Forest, Scikit-learn) with LLM API integration. Strong foundation in Data Structures and Algorithms, OOP, DBMS and Git/GitHub workflows.

EDUCATION

Jaypee University of Engineering and Technology, Guna *2023 – 2027*
B.Tech – Computer Science and Engineering

Excellence Hr. Sec. School, Madhya Pradesh *2022*
Class XII (MP Board) – 80.2%

Excellence Hr. Sec. School, Madhya Pradesh *2020*
Class X (MP Board) – 94.5%
